

Human Supremacy

By Mr. Wayne

Human Supremacy? Okay. In this Universe, there are things more superior than other things. A fly cannot physically whoop a human's ass. There may be a fly that can. There are exceptions to every rule. But generally, a human can kill a fly with physical strength.

In nature, there are animals that humans cannot beat physically. A lion, tiger, bear, oh my. A dog, wolf, and even little cats can kick a little ass too. But as for human against human, in physical combat, the human with the more will to win, usually wins.

White Supremacy? Okay. Let me destroy it. Physical, Mental, and Spiritual are the big three Supreme Human Strengths. When you say "White Supremacy" are you proclaiming to be superior to all Humans in all three? Without tests? That's NOT fair!

It is suggested that a Nigga is the darkest species of the Chocolate skin people. There are Rich Black People, Regular Black People, and there are Niggas. They all used to be Niggers until they started whooping White Folks asses. And now, only Black Folks and Niggas can say Nigger, Nigga, Muthafuckin' Bitchass Nigga, etc., or it's war. So, if there was a such a thing as "WHITE SUPREMACY", the White Folks would be undefeated in war using any aspects of physical power.

And when it's Human against Human; your skin color will NOT help you fight. But it is all in the testing. If you're a White Human and you believe you're more Physically Superior to all other Humans, test it. I haven't seen it.

I've seen White Folks get knocked the fuck out by all other skin-colored folks. I've seen some White Folks that have knocked the fuck out all other skin-colored folks. This is within the testing. What the fuck? You want "White Supremacy" on what? We now know it can't be physical superiority, or Black folks would still be in slavery.

It's called the Civil War. That was the first time for two things. For White Folks, they found out that Black Folks can fight. For Black Folks, they found out that White Folks can die. So, no Human is more Physically Powerful than another Human unless they fight and there's a winner. Fuck giving another Human superiority over you on reputation.

The next strength is Mental, or Intellectual, or Psychological. It's fighting from your ideas, imaginations, memories, and thoughts. The educated Humans are special.

How? They can outthink the dumbass Human that only knows how to fight physically.

A good intelligent Human can make you whoop your own ass using your own fist.

Mental Strength is a thing. Or why are there Psychologist? But I digress.

The next Human Superior Strength is strength of Spiritual Knowledge.

How do you fight with the Strength of Spiritual Knowledge?

You learn a lot of shit, then how to shut the fuck up and let God fight all your battles.

The ONE thy ONLY Creator of Everything is undefeated.

Strength is Spiritual Knowledge is the knowing the God is a Spirit.

The Spirit of God created the Humans Physical Strength.

The Spirit of God created the Human Mind Strength.

If any Human relies on the Spirit of God to fight any three, victory,

is what the outcome will always be.

White Supremacy?! Nonsense. Human Supremacy must be tested on all three.

Any Human that believes that their "white", but more like "pink" skin will help them fight is delusional, and Spiritual Blind, Deaf, Dead, and dumb ass fuck.

I'm a Black Man. I can fight physically, mentally, and spiritually relying on God for all three.

But if there be a White Man or any other skin-colored Human on the Earth that believes they're more superior to me physically, mentally, and spiritually, I'm your Huckleberry.

Say where and when. *V*

And so, it is.
